

Toroidal Current Transformers With mA or Voltage Output

Yuanxing CTT0 series CTs are indoor used, seven window sizes and various turn ratios are optional.

FEASURES

- Low cost
- Wound cold rolling oriented silicon steel core, without air gap, uniform wound secondary winding, small flux leakage
- Seven CT sizes
- Secondary output mA or mV/V.

APPLICATION

- Current, power, energy monitoring devices
- Relay protection devices

SPECIFICATIONS

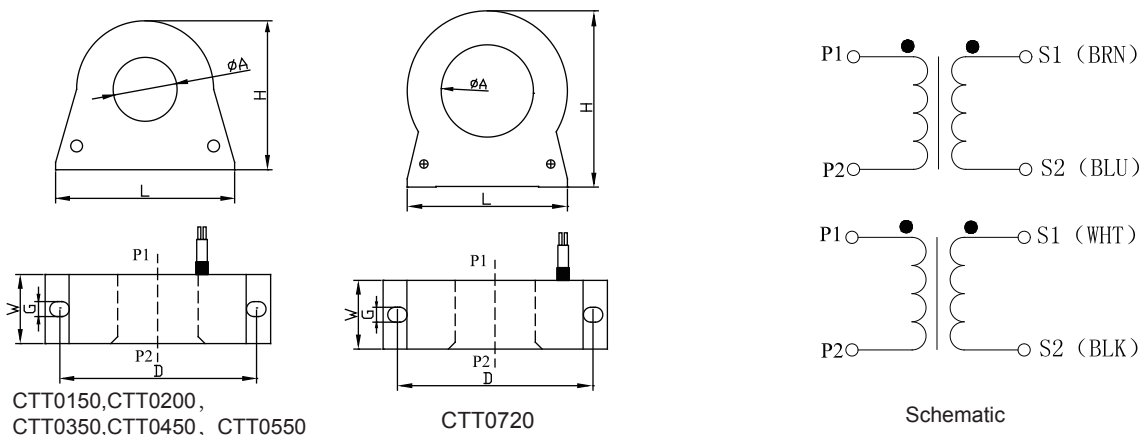

- Case material: ABS or PBT resin.
- Frequency: 50-400 Hz
- Working temperature: -40°C - +85° C
- Working voltage: 600Vac,
- Dielectric strength: 2500V /min
- Surge voltage: 5000V(1.2/50 μ s standard lightning impulse)
- RoHS complied
- CE complied
- Accuracy class: IEC60044-1, Class 0.1, 0.2, 0.5
- Safety requirement: Secondary winding is not allowed to work open circuit.
